About KRL Infratech

KRL Infratech India Limited (KRL), is a limited company formed in 2007 with its head office in Kolkata, West Bengal, India. KRL is pioneers in the field of Slag Management and Metal Recovery with over a three and half decades of experience in various steel plants within and outside India.

Prior to 2007, the chief promoter of KRL, Mr. Pawan Kumar Lakhotia, along with his brothers were owner of earlier companies having exposure to all steel plants of Steel Authority of India Limited i.e., Bhilai, Rourkela, Bokaro, Durgapur, Burnpur, Bhadravathi. Since 1987, for 21 years, the focus was majorly on liquidation of old slag dumps of all SAIL units with the help of excavation, metal recovery and disposal of metal free slag.

Post a split in family business, Mr. Pawan Kumar Lakhotia having his goodwill with business associates and clientele, formed KRL with an aim to create an enterprise which is efficiently run by its stakeholders and professionals.

Mr. Pawan Kumar Lakhotia, stepped down from KRL in the year 2020, after setting up a solid foundation, in able hands of the current management board for future growth. Since last 15 years, of its formation KRL

has ventured into different fields of Mining, Municipal Solid waste management and various trading activities.

KRL is ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 certified and therefore is committed to providing quality services to its customers but never losing sight to protect and conserve the environment.

Today, KRL is leader in Steel Mill Services, Mining and Trading activities through continued focus on research, improved technologies, processes, and market development, KRL is a trusted provider of services to companies all over India.

KRL has upgraded itself with standard procedures and state of art machinery from standard endors.

We have a full-fledged ERP system developed for the entire company operation for better track and response time.

KRL has a dedicated central Health Safety and Environment team co-ordinating and ensuring common safety management systems are in place in every working site.

Vision

To be a multi-national corporation, providing service all over globe, in the field of steel mill services and extend the scope of by products or waste management into different sectors.
